
Non-stick Oven Liner

Never clean the bottom of your oven again! With the non-stick oven liners, spillovers clean up with ease. Even burnt and baked on foods wipe away easily. Oven liners are designed to fit the bottom of a 30" oven or the largest toasters ovens and can be trimmed to fit smaller ovens.

Features:

- 1. PTFE-fiberglass; nonstick coating on both sides prevent sticking without oils, grease, sprays or butter, easy cleaning, re-usable.**
- 2. Prevents spills and debris accumulation in toaster oven; can be cut to fit any size**
- 3. good temperature durability, from 260°C(500F) for long time, utmost temperature to 310°C(590F).**
- 4. dishwasher-safe and safe for contact food, chemical resistance etc.**

Application

1. FOR COOKING:

- 1) Use a scissors to cut the Cook's Slide to your desired shapes and sizes.**
- 2) Place in bottom of pots, fry pans, cookie sheets, baking pans, flat grills, plates etc.**
- 3) Place food on Cook's Slide and cook as desired.**
- 4) When cooled, wash Cook's Slide in warm soapy water and rinse thoroughly.**
- 5) Cook's Slide is reusable, over and over.**

2. AS AN OVEN LINER:

Electric Ovens – Place on bottom of oven floor or on bottom rack.
Gas Ovens—Place on bottom rack only. Do not place on bottom floor of oven.

- 3. AS A PREP SURFACE: use to roll pastry dough. Decreases need for excessive flour.**

Appearance

- 1)non-stick oven liner ,the measure is as request
- 2)last for years
- 3)may be trimmed to fit smaller ovens
- 4)burnt and baked on foods wipe away easily
- 5)dishwasher safe for simple clean-up
